### The Man Who Loved Alien Landscapes By Albert Wendland

A science fiction novel that begins as a murder mystery and is taken over by an interstellar treasure hunt. What could draw poet, explorer, loner and paranoid Mykol Ranglen away from the relative peace of his own stellar habitat? He has no choice in the matter as one by one acquaintances are murdered or disappear altogether. Propelled by ever changing and deepening mysteries Mykol embarks to uncover secrets which could make people rich beyond their wildest dreams...or tear apart human civilization. The escalating quest takes him through worlds of many dangerous extremes, leading him to confront the deadly alien "fist of thorns," extinct species refusing to give up their power over the future, and those racing against him to uncover the secret first. But in the course of his pursuit, he must also face his own secrets. And some of these are more dangerous.
