Get Print Book

You're no idiot, of course. You know Heisenburg's uncertainty principle has nothing to do with where you put your car keys. But modern cosmology is relatively complicated. The mystery of the universe definitely isn't one we can flip to the end to see whodunit. That hasn't stopped physicists, astronomers, and philosophers from searching for clues! The topic is infinite (literally), but once you've read this book, you'll have a solid idea of our place in the universe—and even where the cosmos itself might be headed. In this Complete Idiot's Guide®, you'll explore ...

- Major religions, philosophical, and scientific theories concerning the nature and origin of the universe.
- “The theory of everything”—one coherent model that would explain how all the forces and particles of nature work.
- The fascinating and even sometimes bizarre implications of the latest theories.

Users Review

From reader reviews:

Luther Roberts:

The book The Complete Idiot's Guide to Theories of the Universe can give more knowledge and also the precise product information about everything you want. Exactly why must we leave the great thing like a book The Complete Idiot's Guide to Theories of the Universe? Some of you have a different opinion about reserve. But one aim in which book can give many facts for us. It is absolutely suitable. Right now, try to closer with your book. Knowledge or data that you take for that, you could give for each other; you are able to share all of these. Book The Complete Idiot's Guide to Theories of the Universe has simple shape but the truth is know: it has great and big function for you. You can search the enormous world by wide open and read a e-book. So it is very wonderful.

Catherine Gabel:

Why? Because this The Complete Idiot's Guide to Theories of the Universe is an unordinary book that the inside of the book waiting for you to snap that but latter it will surprise you with the secret this inside. Reading this book close to it was fantastic author who else write the book in such wonderful way makes the content on the inside easier to understand, entertaining way but still convey the meaning totally. So , it is good for you for not hesitating having this ever again or you going to regret it. This phenomenal book will give you a lot of advantages than the other book have such as help improving your expertise and your critical thinking method. So , still want to hesitate having that book? If I ended up you I will go to the publication store hurriedly.

Byron Angle:

Is it you who having spare time after that spend it whole day by watching television programs or just telling lies on the bed? Do you need something new? This The Complete Idiot's Guide to Theories of the Universe can be the respond to, oh how comes? It's a book you know. You are and so out of date, spending your time by reading in this completely new era is common not a geek activity. So what these textbooks have than the others?

Stephen Thrush:

Do you like reading a reserve? Confuse to looking for your best book? Or your book ended up being rare? Why so many problem for the book? But virtually any people feel that they enjoy for reading. Some people likes looking at, not only science book but in addition novel and The Complete Idiot's Guide to Theories of the Universe or perhaps others sources were given know-how for you. After you know how the great a book, you feel want to read more and more. Science guide was created for teacher or students especially. Those guides are helping them to bring their knowledge. In various other case, beside science e-book, any other book likes The Complete Idiot's Guide to Theories of the Universe to make your spare time more colorful. Many types of book like this one.
