Editorial Review

Review

"I believe that this book by Denis McNamara is the kind of mystagogy Pope Benedict called for. I believe it is the kind of mystagogy the ancient Fathers would wish for their own churches. Dr. McNamara knows that to contemplate sacred space is not merely to trace influences in an evolutionary diagram back to Vitruvius. To understand a church requires more than a genealogy of tourist postcards. It requires an interior life. It requires a hope of heaven. It requires a revelation. It calls for mystagogy. All of which are evident in the pages of this book.

Dr. McNamara has given us something we desperately need, something rare and great: at once an achievement of scholarship, a work of mystagogy, and an act of piety." --Scott Hahn, Founder and Director, St. Paul Center for Biblical Theology

"With his *Catholic Church Architecture and the Spirit of the Liturgy*, Dr. Denis McNamara has made a most significant contribution to the theology of the Sacred Liturgy, in the line of the luminous writings on the subject by Pope Benedict XVI, both before and after his election to the See of Peter. Dr. McNamara argues convincingly and well that the *lex aedificandi*, that is, the norm of building in what pertains to churches and chapels, like the *lex orandi* or norm of praying, by its very nature, gives expression to the *lex credendi* or norm of faith itself.

Among the many rich elements of Dr. McNamara's profound and comprehensive study of Sacred Architecture is his most timely application of the "hermeneutic of continuity," that is, the interpretation of Sacred Architecture in the light both of the roots of Christian worship in Jewish worship and of the organic development of Sacred Worship, down the Christian centuries. Dr. McNamara helps us to understand how a church or chapel is at one and the same time the House of God and the House of the Church.

I wholeheartedly commend the work of Dr. McNamara to all who want to deepen their understanding of sacred architecture, who desire to be schooled in the Church's *lex aedificandi*. In a particular way, it is my hope that his study will become a standard reference for seminarians and priests, and for all who have responsibility for the building and maintenance of churches and chapels. For every attentive reader, *Catholic Church Architecture and the Spirit of the Liturgy* will not fail to offer a most significant contribution to the life of faith and worship." --The Most Reverend Raymond L. Burke, Archbishop Emeritus of Saint Louis

"This comprehensive volume answers the two questions that should initiate any discussion about the future of liturgical architecture: Why and How. Why should a church look like a church? How do we "read" a church to know if it does? The answer to these fundamental questions does not come out of ideology or archaism, but from a theological analysis of Beauty and a review of architectural principles. McNamara has the uncommon capacity to speak about both, as he describes the church as a sacramental building.

McNamara's progression from eschatological icon and Beauty to the architectural principles of decoration and ornament to a careful reading of Sacrosanctum Concilium is ingenious. If congregations facing a renovation, priests facing a building committee, and church architects facing a project were to really struggle with the content of this book, it would change the kind of churches that we build. The book has the potential to change the future. What would happen to church architecture for the next fifty years if this book were to be read seriously?" --David Fagerberg, Associate Professor of Theology, University of Notre Dame
