Introduction to MATLAB (3rd Edition) By Delores M. Etter

🖶 Get Print Book

Introduction to MATLAB is intended for use in first-year or introductory Engineering courses. It also serves as an essential MATLAB introduction for engineers.

i

Best-selling author Delores Etter provides an up-to-date introduction to MATLAB. Using a consistent five-step problem-solving methodology, Etter describes the computational and visualization capabilities of MATLAB and illustrates the problem solving process through a variety of engineering examples and applications.

i

Teaching and Learning Experience

This program will provide a better teaching and learning experience–for you and your students. It will help:

- i
- Customize your Course with ESource: Instructors can adopt this title as is, or use the ESource website to select the chapters they need, in the sequence they want.
- **Present a Consistent Methodology for Solving Engineering Problems:** Chapter 1 introduces a five-step process for solving engineering problems using the computer
- Describe the Exceptional Computational and Visualization Capabilities of MATLAB: Students will gain a clear understanding of how to use MATLAB.
- Illustrate the Problem-solving Process through a Variety of Engineering Examples and Applications: Numerous examples emphasize the creation of readable and simple solutions to develop and reinforce problem-solving skills.
- Keep your Course Current with Discussion of the Latest Technologies: The discussions, screen captures, examples, and problem solutions have been updated to reflect MATLAB Version 8.2, R2013b.

Editorial Review

About the Author

Dr. Delores M. Etter, Assistant Secretary of the Navy for Research, Development and Acquisition, leads R&D and acquisition throughout the U.S. Navy. She is the first United States Naval Academy faculty member to hold the Office of Naval Research Distinguished Chair in Science and Technology. Dr. Etter is a member of the National Academy of Engineering, and a fellow of IEEE, AAAS, and ASEE.

Users Review

From reader reviews:

Janet Roldan:

Have you spare time for a day? What do you do when you have much more or little spare time? That's why, you can choose the suitable activity regarding spend your time. Any person spent their spare time to take a walk, shopping, or went to typically the Mall. How about open as well as read a book called Introduction to MATLAB (3rd Edition)? Maybe it is for being best activity for you. You understand beside you can spend your time with the favorite's book, you can wiser than before. Do you agree with it is opinion or you have other opinion?

Jon Harrill:

A lot of people always spent their very own free time to vacation or perhaps go to the outside with them friends and family or their friend. Were you aware? Many a lot of people spent they free time just watching TV, or even playing video games all day long. If you need to try to find a new activity that's look different you can read a book. It is really fun for yourself. If you enjoy the book that you simply read you can spent the whole day to reading a publication. The book Introduction to MATLAB (3rd Edition) it is extremely good to read. There are a lot of individuals who recommended this book. These were enjoying reading this book. In case you did not have enough space to deliver this book you can buy typically the e-book. You can m0ore quickly to read this book from a smart phone. The price is not to cover but this book has high quality.

Lionel Gutierrez:

Reading can called thoughts hangout, why? Because if you are reading a book particularly book entitled Introduction to MATLAB (3rd Edition) the mind will drift away trough every dimension, wandering in every single aspect that maybe unknown for but surely will end up your mind friends. Imaging every single word written in a reserve then become one web form conclusion and explanation which maybe you never get previous to. The Introduction to MATLAB (3rd Edition) giving you one more experience more than blown away your head but also giving you useful data for your better life within this era. So now let us demonstrate the relaxing pattern here is your body and mind will likely be pleased when you are finished looking at it, like winning a game. Do you want to try this extraordinary paying spare time activity?

Kenneth Matson:

Many people spending their period by playing outside along with friends, fun activity having family or just watching TV the whole day. You can have new activity to spend your whole day by looking at a book. Ugh, think reading a book can really hard because you have to accept the book everywhere? It alright you can have the e-book, getting everywhere you want in your Touch screen phone. Like Introduction to MATLAB (3rd Edition) which is having the e-book version. So , try out this book? Let's see.
