The Heart of Mathematics: An invitation to effective thinking By Edward B. Burger, Michael Starbird

The Heart of Mathematics addresses the big ideas of mathematics (many of which are cutting edge research topics) in a non-computational style intended to be both read and enjoyed by students and instructors, as well as by motivated general readers. It features an engaging, lively, humorous style full of surprises, games, mind-benders, and all without either sacrificing good mathematical thought or relying on mathematical computation or symbols.

The authors are award-winning authors, holding awards such as: Distinguished Teaching Award (Burger, from the Mathematical Association of America); Chauvenet Prize (the best expository mathematics writer in the world, Burger, from the MAA) and many others.

Editorial Review

Review

From the reviews of the second edition:

"In this book, the reader will see that mathematics is a network of intriguing ideas It is a really nice book. ... This attractive book contains a lot of well-known and interesting problems It is really true that the ideas presented in this book are some of the most fascinating and beautiful ones around. ... The reader will have something to explore, to learn, to think, to enjoy, and to add new aspects to his view of everything." (Valentina Dagienė, Zentralblatt MATH, Vol. 1065, 2005)
