Beginning Big Data with Power BI and Excel 2013: Big Data Processing and Analysis Using PowerBI in Excel 2013 By Neil Dunlop

In *Beginning Big Data with Power BI and Excel 2013*, you will learn to solve business problems by tapping the power of Microsoft's Excel and Power BI to import data from NoSQL and SQL databases and other sources, create relational data models, and analyze business problems through sophisticated dashboards and data-driven maps.

While *Beginning Big Data with Power BI and Excel 2013* covers prominent tools such as Hadoop and the NoSQL databases, it recognizes that most small and medium-sized businesses don't have the Big Data processing needs of a Netflix, Target, or Facebook. Instead, it shows how to import data and use the self-service analytics available in Excel with Power BI. As you'll see through the book's numerous case examples, these tools—which you already know how to use—can perform many of the same functions as the higher-end Apache tools many people believe are required to carry out in Big Data projects.

Through instruction, insight, advice, and case studies, *Beginning Big Data with Power BI and Excel 2013* will show you how to:

- Import and mash up data from web pages, SQL and NoSQL databases, the Azure Marketplace and other sources.
- Tap into the analytical power of PivotTables and PivotCharts and develop relational data models to track trends and make predictions based on a wide range of data.
- Understand basic statistics and use Excel with PowerBI to do sophisticated statistical analysis—including identifying trends and correlations.
- Use SQL within Excel to do sophisticated queries across multiple tables, including NoSQL databases.
- Create complex formulas to solve real-world business problems using Data Analysis Expressions (DAX).

The author has served as chair of the Business and Computer Information Systems Departments for many years. He has over thirty-five years experience as a computer programmer and software designer and is the author of three books on database management. He is listed in Marquis Who's Who in America and Who's Who in the World.

Users Review

From reader reviews:

Lillian Carlucci:

Do you have favorite book? If you have, what is your favorite's book? E-book is very important thing for us to know everything in the world. Each publication has different aim as well as goal; it means that book has different type. Some people really feel enjoy to spend their time to read a book. They may be reading whatever they get because their hobby will be reading a book. Consider the person who don't like looking at

a book? Sometime, particular person feel need book when they found difficult problem as well as exercise. Well, probably you will want this Beginning Big Data with Power BI and Excel 2013: Big Data Processing and Analysis Using PowerBI in Excel 2013.

Chad Wright:

Throughout other case, little individuals like to read book Beginning Big Data with Power BI and Excel 2013: Big Data Processing and Analysis Using PowerBI in Excel 2013. You can choose the best book if you love reading a book. Provided that we know about how is important a new book Beginning Big Data with Power BI and Excel 2013: Big Data Processing and Analysis Using PowerBI in Excel 2013. You can add knowledge and of course you can around the world by just a book. Absolutely right, simply because from book you can learn everything! From your country until eventually foreign or abroad you may be known. About simple matter until wonderful thing you could know that. In this era, we can open a book as well as searching by internet product. It is called e-book. You need to use it when you feel bored stiff to go to the library. Let's examine.

Robert King:

This Beginning Big Data with Power BI and Excel 2013: Big Data Processing and Analysis Using PowerBI in Excel 2013 book is not really ordinary book, you have after that it the world is in your hands. The benefit you get by reading this book is information inside this reserve incredible fresh, you will get facts which is getting deeper anyone read a lot of information you will get. This kind of Beginning Big Data with Power BI and Excel 2013: Big Data Processing and Analysis Using PowerBI in Excel 2013 without we understand teach the one who examining it become critical in contemplating and analyzing. Don't end up being worry Beginning Big Data with Power BI and Excel 2013: Big Data Processing and Analysis Using PowerBI in Excel 2013 can bring whenever you are and not make your handbag space or bookshelves' turn into full because you can have it within your lovely laptop even cellphone. This Beginning Big Data with Power BI and Excel 2013: Big Data Processing and Analysis Using PowerBI in Excel 2013 having fine arrangement in word along with layout, so you will not feel uninterested in reading.

Nicholas Riley:

The book Beginning Big Data with Power BI and Excel 2013: Big Data Processing and Analysis Using PowerBI in Excel 2013 will bring you to the new experience of reading a new book. The author style to describe the idea is very unique. In case you try to find new book to learn, this book very ideal to you. The book Beginning Big Data with Power BI and Excel 2013: Big Data Processing and Analysis Using PowerBI in Excel 2013 is much recommended to you to study. You can also get the e-book from the official web site, so you can quickly to read the book.
