How to Create Chemistry with Anyone: 75 Ways to Spark It Fast--and Make It Last By Leil Lowndes

Why do you feel an instant attraction to one person and not another? And how can you help ensure that a connection lasts? With her ability to deliver cutting edge information in a lighthearted style, communications expert Leil Lowndes has made a career of teaching the secrets of successful interaction.

In this book, based on the latest findings in cognitive science, she shows readers how to spark that elusive feeling of chemistry with almost anyone—and sustain it when the relationship moves to the next level, from marriage to parenthood and beyond.

Although chemistry affects nearly every relationship, few people understand it—what initiates it, what destroys it, and what makes it last forever. While genetic makeup and past experiences all play a role, there are many things you can do to influence it.

Ultrapractical, *How to Create Chemistry with Anyone* turns the complex neurological science of attachment into 75 easy communication strategies and unusual techniques that show readers what to do—and what *not* to do—to find and keep love.
