How To Think Straight About Psychology (8th Edition) By Keith E. Stanovich

Keith Stanovich's widely used and highly acclaimed book helps students become more discriminating consumers of psychological information, helping them recognize pseudoscience and be able to distinguish it from true psychological research. Stanovich helps instructors teach critical thinking skills within the rich context of psychology. It is the leading text of its kind. How to Think Straight About Psychology says about the discipline of psychology what many instructors would like to say but haven't found a way to. That is one reason adopters have called it "an instructor's dream text" and often comment "I wish I had written it. It tells my students just what I want them to hear about psychology".

Editorial Review

From the Back Cover

Keith Stanovich's widely used and highly acclaimed book helps instructors teach critical-thinking skills within the rich context of psychology. It can be used as a stand-alone text or as a supplement in introductory psychology, critical-thinking, as well as research methods and statistics courses. It is the premier text of its kind.

Stanovich helps students become more discriminating consumers of psychological information by helping them recognize pseudoscience and be able to distinguish it from true psychological research. Psychological topics such as falsifiability, operationalism, experimental control, converging evidence, correlational vs. experimental studies, and statistics are presented as tools for critical evaluation, giving students a set of practical consumer skills to independently evaluate psychological claims. Students also are given a set of "consumer rules" for dealing with psychology in the media.

How to Think Straight About Psychology says what many instructors would like to say about the discipline of psychology but haven't found a way to. That is one reason adopters have called it "an instructor's dream text" and often comment "I wish I had written it. It tells my students just what I want them to hear about psychology."

New to the eighth edition are expanded discussions of reliability and validity, meta-analysis, and the differences between random sampling versus random assignment.

Users Review

From reader reviews:

Steven Ward:

Inside other case, little individuals like to read book *How To Think Straight About Psychology (8th Edition)*. You can choose the best book if you like reading a book. So long as we know about how is important a new book *How To Think Straight About Psychology (8th Edition)*. You can add know-how and of course you can around the world by way of a book. Absolutely right, simply because from book you can learn everything! From your country until eventually foreign or abroad you will end up known. About simple thing until wonderful thing you can know that. In this era, you can open a book as well as searching by internet gadget. It is called e-book. You may use it when you feel uninterested to go to the library. Let's study.

Richard Haley:

What do you think about book? It is just for students as they are still students or this for all people in the world, the actual best subject for that? Only you can be answered for that problem above. Every person has various personality and hobby for every other. Don't to be forced someone or something that they don't would like do that. You must know how great as well as important the book *How To Think Straight About Psychology (8th Edition)*. All type of book would you see on many options. You can look for the internet

options or other social media.

Calvin Cline:

Does one one of the book lovers? If yes, do you ever feeling doubt when you are in the book store? Aim to pick one book that you find out the inside because don't evaluate book by its deal with may doesn't work here is difficult job because you are afraid that the inside maybe not seeing that fantastic as in the outside appear likes. Maybe you answer is usually How To Think Straight About Psychology (8th Edition) why because the wonderful cover that make you consider regarding the content will not disappoint a person. The inside or content is actually fantastic as the outside or cover. Your reading 6th sense will directly direct you to pick up this book.
