Editorial Review

From Library Journal

Jaworski, the son of Watergate special prosecutor Leon Jaworski, here presents his personal philosophy of life. As founder of the American Leadership Forum, Jaworski espouses the value of servant leadership, which calls for leadership that is relationship-oriented, creative, and constructive. Additionally, he comments on the world economic situation. Regrettably, the author seems too self-absorbed at times, wandering from topic to topic without providing any insight. At one point, Jaworski claims, "We are all one," but how does one apply that to leadership? Due to the lack of any practical ideas, this recording is not recommended.

From Scientific American

"Synchronicity illustrates that leadership is about the release of human possibilities, about enabling others to break free of limits-created organizationally or self-imposed. Although this book describes the author's personal journey, it contains profound messages about organizational learning and effectiveness."

From [The New Yorker](#)

"Written from the heart as well as the head, Synchronicity is the story of one man's journey toward the place we all must go in the century ahead. Jaworski's life demonstrates that the immense cultural and institutional change, which a livable future demands, can begin anytime, anywhere, in anyone, even those who have benefited greatly from the old order of things."
