Love, Technically By Lynne Silver

A satisfying category romance novella from Entangled's Lovestruck imprint...

She's falling for his alter-ego...

Noah Frellich is a king amongst geeks. As CEO of Chicago's hottest tech company, he's done with the world only seeing him for his money—especially when it comes to romance. So when he helps a beautiful employee with a printer problem and she mistakes him for a help desk technician? Well, Noah can't help but play along...through every sexy, romantic moment.

Small-town girl Michelle Kolson loves life in Chicago, not to mention her work at a cutting-edge tech company. A whirlwind romance with a hot coworker is the cherry on her happy life sundae—until her job lands on the chopping block.

Suddenly, nothing is what it seems, and Michelle finds out the man she fell headfirst into bed with actually owns the company. If Noah's going to convince the sweet, small-town girl to stay in the big city, he'll have to prove he's still the sexy nerd she fell for.

Editorial Review

Users Review

From reader reviews:

Donna Cancel:

Book is to be different for each and every grade. Book for children until adult are different content. To be sure that book is very important for us. The book Love, Technically was making you to know about other information and of course you can take more information. It is very advantages for you. The publication Love, Technically is not only giving you considerably more new information but also to become your friend when you truly feel bored. You can spend your own spend time to read your book. Try to make relationship with the book Love, Technically. You never feel lose out for everything should you read some books.

Maria Green:

This book untitled Love, Technically to be one of several books this best seller in this year, here is because when you read this e-book you can get a lot of benefit on it. You will easily to buy that book in the book store or you can order it by way of online. The publisher in this book sells the e-book too. It makes you more readily to read this book, because you can read this book in your Smartphone. So there is no reason to you to past this guide from your list.

Virgil Santamaria:

Playing with family within a park, coming to see the coastal world or hanging out with good friends is thing that usually you have done when you have spare time, in that case why you don't try factor that really opposite from that. Just one activity that make you not sense tired but still relaxing, trilling like on roller coaster you have been ride on and with addition of information. Even you love Love, Technically, you could enjoy both. It is very good combination right, you still would like to miss it? What kind of hang type is it? Oh seriously its mind hangout folks. What? Still don't buy it, oh come on its known as reading friends.

Connie Curtis:

E-book is one of source of information. We can add our know-how from it. Not only for students but also native or citizen require book to know the change information of year for you to year. As we know those textbooks have many advantages. Beside all of us add our knowledge, can also bring us to around the world. By the book Love, Technically we can acquire more advantage. Don't that you be creative people? To be creative person must love to read a book. Only choose the best book that suited with your aim. Don't possibly be doubt to change your life by this book Love, Technically. You can more pleasing than now.
