### **Editorial Review**

#### **From the Publisher**

This is the only book on this fascinating subject written by a Canadian. It is clearly written, well organized and leads the reader step-by-step to a point where he/she can do a very impressive analysis of anyone's personality. This is a powerful subject and the Author, with his management background, has provided a balanced perspective that objectively explains the intricacies and complexities while doing so with down-to-earth language and good humour.

#### **From the Author**

My intent was to create a book that effectively teaches the subject of Handwriting Analysis and I am proud to say that many of my colleagues now use it in their classes. The first edition was successful in laying out some of the principles of Handwriting Analysis so that a beginner could actually put a fairly comprehensive analysis together. In the second and third editions, I wanted to show the readers how they could apply such analysis to four very important arenas of life. The second edition showed the reader how to measure Emotional Intelligence, determine the compatibility between two individuals, and it taught parents and teachers how they could better understand and help their children. This third edition deals with Danger and Dishonesty and, of course, contains all of the content of the earlier two editions. It is my hope that, as the reader gets more and more into this subject, he or she will realize that Handwriting Analysis is a powerful window to the personality and, indeed, it is truly an adventure in self-discovery.
