#### **Review**

"An elegantly simple explanation of a complex disease that anyone can understand. Every person following the advice in this book can dramatically alter the course of heart disease in themselves, their loved ones, and our nation. " --Edward Perlstein M.D.

I have been amazingly rejuvenated to get back on track and after reading Dr. Lundell's book I now know that I was never on track. This is the most important book you will ever read! --A Seay, Scottsdale, Arizona.

Unlike so many books on heart disease, I could not put this one down! It was easy to understand and kept me in anticipation of finding the hidden treasure--the Cure. The co-author puts himself in the position of a skeptic, which allows the reader to uncover the information just as he does. And, Dr. Lundell really cares--he presents the facts and gives the reader choices. Thank you!! --Liz Lehn --Five year veteran of quadruple bypass surgery
