Invest Like the Best: Using Your Computer to Unlock the Secrets of the Top Money Managers/Book and Idks By James P. O'Shaughnessy

This book and disk shows the more than 380,000 computerized investors how to use their personal computers to emulate Wall Street's wizards. Unlike other books that merely describe the general methods of top managers, "Invest Like the Best" actually reduces those strategies to the core successful variables that experts use to pinpoint and select the top stocks. And it includes step-by-step guidelines for building a computer model to emulate any money manager from John Templeton to Peter Lynch. O'Shaughnessy also describes how to create a hybrid strategy that combines the best elements of different money managers' styles and outperforms them all.
