Recovering Informal Learning: Wisdom, Judgement and Community (Lifelong Learning Book Series) By Paul Hager, John Halliday

Educational theory and practice have long been dominated by the requirements of formal learning. This book seeks to persuade readers through philosophical argument and empirical examples that the balance should shift back towards the informal. The arguments and examples derive from informal learning in diverse situations, such as leisure activities, as a preparation for and as part of work, and as a means of surviving undesirable circumstances like dead-end jobs and incarceration.

Editorial Review

From the Back Cover

For too long, theories and practices of learning have been dominated by the requirements of formal learning. Quite simply this book seeks to persuade readers through philosophical argument and empirically grounded examples that the balance should be shifted back towards the informal. These arguments and examples are taken from informal learning in very diverse situations, such as in leisure activities, as a preparation for and as part of work, and as a means of surviving undesirable circumstances like dead-end jobs and incarceration. Informal learning can be fruitfully thought of as developing the capacity to make context sensitive judgments during ongoing practical involvements of a variety of kinds. Such involvements are necessarily indeterminate and opportunistic. Hence there is a major challenge to policy makers in shifting the balance towards informal learning without destroying the very things that are desirable about informal learning and indeed learning in general. The book has implications therefore for formal learning too and the way that teaching might proceed within formally constituted educational institutions such as schools and colleges.

Users Review

From reader reviews:

Frank Botelho:

Have you spare time for just a day? What do you do when you have much more or little spare time? Yes, you can choose the suitable activity regarding spend your time.
