PhysioEx 9.1: Laboratory Simulations in Physiology with 9.1 Update By Peter Zao, Timothy N. Stabler, Lori A. Smith, Andrew Lokuta, Edwin Griff

Note: This ISBN includes both the PhysioEx 9.1 lab manual AND the PhysioEx 9.1 CD. Please visit www.physioex.com for different ordering options.

PhysioEx™ 9.0: Laboratory Simulations in Physiology with 9.1 Update is an easy-to-use laboratory simulation software and lab manual that consists of 12 exercises containing 63 physiology lab activities that can be used to supplement or substitute wet labs. PhysioEx allows you to repeat labs as often as you like, perform experiments without harming live animals, and conduct experiments that are difficult to perform in a wet lab environment because of time, cost, or safety concerns.

PhysioEx 9.1 features input data variability that allows you to change variables and test out various hypotheses for the experiments. 9.1 retains the popular new improvements introduced in 9.0 including onscreen step-by-step instructions and “Stop & Think” and “Predict” questions that help you think about the connection between the experiments and the physiological concepts they demonstrate.

Editorial Review

About the Author

Lori Smith is principal at Cheyenne Mountain Junior High in Colorado Springs, Colorado. She has served in public education for 15 years, 9 of which have been in school administration. She began her career as a high school biology and chemistry teacher in 1994 in Colorado. Her work and systematic implementation of RTI at Cheyenne Mountain has led to several state-level presentations, publications, and consultations on RTI implementation. Smith's commitment to action research on RTI at the secondary level was inspired by the support of Evelyn Johnson as Smith completes her doctoral degree in education leadership and administration.

Users Review

From reader reviews:

Nancy Smith:

People live in this new day of lifestyle always make an effort to and must have the extra time or they will get large amount of stress from both day to day life and work.
