Editorial Review

Review

'For a 19 year old, Dhaval Bhatia, packs in quite a cerebral punch. A unique blend of talent, insight, hard work and sheer determination. A **ROCKER**' --The Times Of India

Vedic Maths is the least intimidating of all the forms of mathematics. It is much simpler with just 16 formulas or Sutras. to memorise. And these formulas help one to do all one can with numbers 0 to 9 and that too in record time. It is a treasure trove of knowledge that helps one add, Subtract, multiply and divide at CAT-speed. Researchers who have studied this ancient discipline say that Sutras are based on the way the mind works thus helping the student apply his/her own mind to solve problems. Also Vedic Maths helps the student in getting rid of the "Maths Phobia". It also aids the Teachers as a useful resource because it is easier to use than conventional mathematics. --Vishant V Agarwala.

LONDON SCHOOL teaches students Vedic Mathematics. "Learning Vedic mathematics is fun as it creates a sense of magic of numbers among children as per James Glover associated with several Educational Institutions in England. National Council of Educational Research and Training/India is seriously considering introduction of Vedic Mathematics in Indian Schools. --The Hindu/Century old Daily English Paper
