Motor Learning and Control: Concepts and Applications By Richard Magill

The text provides an introductory study of motor learning and control for students who aspire to become practitioners in exercise science, physical education, and other movement-oriented professions. Magill opens with an introduction to motor skills and control, continues through attention, memory, and learning, and ends with a discussion of instruction, feedback, and practice methods. The text's strong research base, clear presentation and practical applications will help students build a solid foundation in motor skills and prepare them for further exploration on their own.

Editorial Review

About the Author

Richard Magill is a professor in both the Department of Kinesiology and the Department of Psychology at Louisiana State University. He received his Ph.D. in educational psychology from Florida State University with a specialization in motor learning. Earlier he received an M.Ed. from Temple University and a B.S. from Philadelphia College of Bible. He served as the Editor-in-Chief of the Research Quarterly for Exercise and Sport from 1996-1999 having previously served as the section editor for motor learning. He also serves on the editorial board of the Journal of Motor Behavior and has provided editorial assistance to numerous other motor learning journals around the world. Dr. Magill is widely published in refereed journals and has active in the service of Louisiana State University and numerous professional organizations. In April 1999 he was given the LSU Distinguished Faculty Award and in September he was the recipient of the endowed professorship, Helen "Bessie" Silverberg Pliner Professor in Kinesiology.

Users Review

From reader reviews:

Charlotte Kuester:

Nowadays reading books be than want or need but also turn into a life style. This reading practice give you lot of advantages. Associate programs you got of course the knowledge the rest of the information inside the book in which improve your knowledge and information. The knowledge you get based on what kind of publication you read, if you want have more knowledge just go with education and learning books but if you want really feel happy read one along with theme for entertaining for instance comic or novel. Typically the Motor Learning and Control: Concepts and Applications is kind of e-book which is giving the reader erratic experience.

Ashley Paul:

Spent a free time to be fun activity to accomplish! A lot of people spent their spare time with their family, or their own friends. Usually they accomplishing activity like watching television, planning to beach, or picnic from the park. They actually doing same every week. Do you feel it? Do you wish to something different to fill your free time/ holiday? May be reading a book may be option to fill your cost-free time/ holiday. The first thing you will ask may be what kinds of reserve that you should read. If you want to attempt look for book, may be the guide untitled Motor Learning and Control: Concepts and Applications can be excellent book to read. May be it can be best activity to you.

Charles Siegrist:

Are you kind of busy person, only have 10 or maybe 15 minute in your moment to upgrading your mind proficiency or thinking skill actually analytical thinking? Then you are having problem with the book compared to can satisfy your short time to read it because pretty much everything time you only find book

that need more time to be learn. Motor Learning and Control: Concepts and Applications can be your answer given it can be read by you actually who have those short extra time problems.

Anthony Wood:

As we know that book is vital thing to add our information for everything. By a publication we can know everything we want. A book is a range of written, printed, illustrated as well as blank sheet. Every year seemed to be exactly added. This publication Motor Learning and Control: Concepts and Applications was filled with regards to science. Spend your spare time to add your knowledge about your scientific research competence. Some people has various feel when they reading any book. If you know how big benefit of a book, you can truly feel enjoy to read a reserve. In the modern era like now, many ways to get book you wanted.
