#### From the Author

I became interested in Face Reading in order to do better jury selection. As an attorney for more than twenty years I realized that the least reliable information we get from people is what comes out of their mouths. After reading everything I could find on the topic I began to read faces to get feedback. After reading someone's face the person often thought I was psychic but the most common remark was "That's amazing, how do you do that?" So I changed my sign to *Amazing Face Reading* and began writing the book. It has changed my life and the lives of many people who have heard my lectures or taken my class.
