### **Editorial Review**

#### **Amazon.com Review**

Tom Clancy's latest love-letter to the military-industrial complex focuses on the Army--and Fred Franks, a general who helped smash Iraq in the Gulf War. In this first volume of a series on the intricacies of military command, Clancy traces the organizational success story of the U.S. Army's rise from the slough of Vietnam to the heights of victory in the Persian Gulf. In 1972, the Army lacked proper discipline, training, weapons, and doctrine; all these would be overhauled in the next 15 years. For those readers keen on such nuts and bolts, the book will be fascinating. But the book truly sparkles when Franks tells his story. A "tanker" who lost a foot in the invasion of Cambodia, he is a man of great courage, thoughtfulness, and integrity. One cannot help but wince when a civilian tells him, "You and those boys did that for nothing." And for all the acronyms and military history, that is what this book is about: healing the wounds Vietnam inflicted. "But this time [the Gulf War], it was going to end differently. They all would see to that."

#### **From Library Journal**

Having conquered the best sellers lists in both the fiction and nonfiction arenas, Clancy now offers the first in a series of historical accounts of American military leaders in times of war. His first target: the Gulf War. Copyright 1996 Reed Business Information, Inc.

#### **Review**

"A ground-level account of the Persian Gulf War."—**Los Angeles Times**

"A damned exciting read...A fascinating blend of a first-person account, a third-person narrative, a compact analysis of military philosophy and war fighting theory, and an absorbing piece of history."—**Armor Magazine**

### **Users Review**

#### **From reader reviews:**

##### **Tanisha Goss:**

What do you consider book? It is just for students as they are still students or that for all people in the world, the particular best subject for that? Merely you can be answered for that issue above. Every person has diverse personality and hobby per other. Don't to be compelled someone or something that they don't wish do that. You must know how great along with important the book Into the Storm: A Study in Command (Commander Series). All type of book is it possible to see on many resources. You can look for the internet options or other social media.

##### **Desmond Gorman:**

In this 21st millennium, people become competitive in most way. By being competitive currently, people have do something to make these people survives, being in the middle of the crowded place and notice through surrounding. One thing that sometimes many people have underestimated it for a while is reading.

Sure, by reading a e-book your ability to survive increase then having chance to stand up than other is high. To suit your needs who want to start reading any book, we give you this Into the Storm: A Study in Command (Commander Series) book as nice and daily reading e-book.
