Leisure, The Basis Of Culture By Josef Pieper

One of the most important philosophy titles published in the twentieth century, Joseph Pieper's *Leisure, the Basis of Culture* is more significant, even more crucial than it was when it first appeared fifty years ago.

Pieper shows that Greeks understood and valued leisure, as did the medieval Europeans. He points out that religion can be born only in leisure—a leisure that allows time for the contemplation of the nature of God. Leisure has been, and always will be, the first foundation of any culture. He maintains that our bourgeois world of total labor has vanquished leisure, and issues a startling warning: Unless we regain the art of silence and insight, the ability for nonactivity, unless we substitute true leisure for our hectic amusements, we will destroy our culture—and ourselves. These astonishing essays contradict all our pragmatic and puritanical conceptions about labor and leisure; Joseph Pieper demolishes the twentieth-century cult of "work" as he predicts its destructive consequences.

Editorial Review

Language Notes

Text: English (translation)

Original Language: German

Review

"Pieper's message for us is plain.... The idolatry of the machine, the worship of mindless know-how, the infantile cult of youth and the common mind-all this points to our peculiar leadership in the drift toward the slave society.... Pieper's profound insights are impressive and even formidable." -- *New York Times Book Review*

"These two short essays by a contemporary German philosopher go a long way towards a lucid explanation of the present crisis in civilisation.... The first essay... should be read by anyone-and young people in particular-anxious to come to some conclusions about the nature of society." -- *The Spectator, London*

"[Pieper] has subjects involved in everyone's life; he has theses that are so counter to prevailing trends as to be sensational; and he has a style that is memorably clear and direct." -- *Chicago Tribune*

Users Review

From reader reviews:

Eva Burton:

Now a day people that Living in the era where everything reachable by talk with the internet and the resources inside it can be true or not require people to be aware of each facts they get.
