Editorial Review

Review

"Although a reclamation of Anténor Firmin's erudite scholarship is long overdue, this translation of his late nineteenth-century book could not have been made available at a more opportune time--at the start of a new millennium when the problem of racism persists worldwide in both old and new guises. This foundational text in critical anthropology points to the importance of expanding the scope of the discipline's history to engage neglected works that activist, anti-racist, and racially-subordinated intellectuals contributed."--Faye V. Harrison, professor of anthropology at the University of Tennessee at Knoxville
