Introduction: Has this little tragedy ever happened to you? You're walking down the street, minding your own business. Wondering how the hell you're going to meet the next payment on your car. And suddenly you spot a girl. Not just an ordinary girl, but someone you actually find yourself "running" to catch-up with. For an instant, you even consider grabbing her right there in the street. As you close-in on her, your heart starts to pound like a drum. You rack your brain. What can I say that will make her melt into a little pool of butter at my feet? How can I manage to hold her and bite her and hug her and plant kisses all over her wonderful, supple body? Your mind draws a blank. You don't know what to do. You worry, maybe she'll think my ears are too big. Maybe, God forbid, she'll notice my bald spot. You're terrified that if you do get up enough nerve to say something, it'll be silly. She'll ignore you. Or even worse, she'll tell you to get lost. So when you finally do catch-up with her, you don't say anything at all. You merely watch as she turns the corner and sashays out of your life forever. In the days and weeks to come you think of her. Often. More than you care to. And it drives you nuts. Why didn't you make contact with her? Why were you such a coward? If only there was something you could have said that would have made her take notice of you. Some magic little technique that would have gotten her to come with you. Talk with you. Well, the fact is there's more than one little magic technique for picking-up girls. There are literally thousands of them. And you'll find just about every one of them right here in this book...
