1000 Questions and Answers from Kumar & Clark's Clinical Medicine, 2e

From Brand: Saunders Ltd.

- What causes hypertension in children?
- Is it common for epileptic patients to have post-ictal vomiting? If so, how often does this occur?
- Why is the incidence of parkinsonism less common in smokers?
- What is the role of urine examination in diabetic control?

Where do you turn to when you have a difficult medical question that needs answering?

The 'Ask the Author' online feature from the best-selling textbook Kumar & Clark's *Clinical Medicine* has collected a wealth of questions and comments directly from medical students and doctors about topics that are of particular interest or difficulty to them.

Kumar and Clark have brought together over 1000 of the questions they have been asked along with their answers. It will appeal to the many fans of *Kumar & Clark*, from first-year students to practising doctors, and will provide a useful and interesting sounding board to help ensure best practice.

This unique book will provide you with a quick and easy way to discover the answers to your own medical questions...!

- The writing style is appealing and conversational, designed to entertain as well as instruct.
- Carries the 'Kumar & Clark' stamp of authority.
- All questions fully indexed for ease of reference.
- Covers topics that are easily misunderstood in medicine – good preparation for medical students, senior house officers/interns and specialists in training/residents preparing for written or oral exams.

Editorial Review

Review

"I found this book very interesting and helpful. I used it with my peers as a question and answer session. The questions I found were frequently asked questions by medical students, and having a clear and accurate answer was brilliant. Overall I would defiantly buy this book; I find it fascinating to read out if interest but also very useful as a learning tool."

Stephanie Henderson, Medical Student

Users Review

From reader reviews:

Hayden Roberts:
