RF Front-End: World Class Designs From Newnes

All the design and development inspiration and direction a hardware engineer needs in one blockbuster book! Janine Love site editor for RF Design Line, columnist, and author has selected the very best RF design material from the Newnes portfolio and has compiled it into this volume. The result is a book covering the gamut of RF front end design from antenna and filter design fundamentals to optimized layout techniques with a strong pragmatic emphasis. In addition to specific design techniques and practices, this book also discusses various approaches to solving RF front end design problems and how to successfully apply theory to actual design tasks. The material has been selected for its timelessness as well as for its relevance to contemporary RF front end design issues.

Contents:

Chapter 1 Radio waves and propagation
Chapter 2 RF Front End Design
Chapter 3 Radio Transmission Fundamentals
Chapter 4 Advanced Architectures
Chapter 5 RF Power Amplifiers
Chapter 6 RF Amplifiers
CHAPTER 7 Basics of PA Design
Chapter 8 Power Amplifiers
Chapter 9 RF/IF Circuits
Chapter 10 Filters
Chapter 11 Transmission Lines and PCBs as Filters
Chapter 12 Tuning and Matching
Chapter 13 Impedance Matching
Chapter 14 RF Power Linearization Techniques

*Hand-picked content selected by Janine Love, RF DesignLine site editor and author

*Proven best design practices for antennas, filters, and layout

*Case histories and design examples get you off and running on your current project

Editorial Review

Users Review

From reader reviews:

Ines Patterson:

Book is actually written, printed, or descriptive for everything. You can recognize everything you want by a e-book. Book has a different type. As it is known to us that book is important point to bring us around the world. Next to that you can your reading ability was fluently. A publication RF Front-End: World Class Designs will make you to be smarter. You can feel far more confidence if you can know about everything. But some of you think in which open or reading the book make you bored. It is far from make you fun. Why they might be thought like that? Have you searching for best book or suited book with you?

Ellen Omalley:

Book is to be different for each and every grade. Book for children right up until adult are different content. We all know that that book is very important normally. The book RF Front-End: World Class Designs was making you to know about other information and of course you can take more information. It doesn't matter what advantages for you. The book RF Front-End: World Class Designs is not only giving you considerably more new information but also being your friend when you sense bored. You can spend your current spend time to read your reserve. Try to make relationship together with the book RF Front-End: World Class Designs. You never experience lose out for everything when you read some books.

Gordon Miller:

Reading a reserve can be one of a lot of exercise that everyone in the world adores. Do you like reading book thus. There are a lot of reasons why people enjoyed. First reading a reserve will give you a lot of new information. When you read a guide you will get new information due to the fact book is one of a number of ways to share the information as well as their idea. Second, looking at a book will make anyone more imaginative. When you looking at a book especially fictional book the author will bring that you imagine the story how the people do it anything. Third, it is possible to share your knowledge to other individuals. When you read this RF Front-End: World Class Designs, you may tells your family, friends along with soon about yours e-book. Your knowledge can inspire the mediocre, make them reading a reserve.

Andrew Hulbert:

Reading a publication make you to get more knowledge from that. You can take knowledge and information originating from a book. Book is written or printed or illustrated from each source in which filled update of news. In this modern era like now, many ways to get information are available for anyone. From media social such as newspaper, magazines, science publication, encyclopedia, reference book, novel and comic.

You can add your knowledge by that book. Ready to spend your spare time to open your book? Or just trying to find the RF Front-End: World Class Designs when you required it?
