A NOTE FROM THE AUTHOR

Bonjour dear reader,

Ever since European history began, we Brits have been happily engaged in our national pastime - annoying the French. And ever since the US came into existence, Americans have joined the party. The past couple of years have shown that this annoying never stops. To give just three examples:

When French political superstar Dominique Strauss-Kahn was arrested in New York, France's establishment was outraged. It soon emerged that the country's male élite regarded sexual harassment as a basic human right.

After a mid-Atlantic collision between French and British nuclear submarines, France's Minister of Defense seemed to blame the accident on ... shrimps.

And when British Prime Minister David Cameron walked out of a Eurosummit, a French politician accused him of being 'like a man at a wife-swapping party who refuses to bring his own wife.' Yes, a very French image, and it just one of the many anti-Anglophone insults that came flying across the Channel.

You will find all this, and much more, in Annoying the French Encore! Because, for the French, the merde never ends.

Yours historically,

Stephen Clarke
