Correspondence By Sigmund Freud, Anna Freud

This book is the first publication of the complete correspondence of Sigmund Freud with his daughter Anna. The correspondence ranges over personal and family matters - social events, family holidays, births and deaths, health issues, war experiences, etc. - as well as professional matters, including the progress of Sigmund Freud's and Anna Freud's scientific works, their views on students and colleagues, and the international dissemination and publication of psychoanalytical writings.

The letters provide valuable insight into the work and family life of the founder of psychoanalysis, Sigmund Freud, including the changes in his perception of women that were triggered by his relation with his daughter. They also shed fresh light on the development of Anna's life and career - the early years in England, the period of her analysis with her own father and the last phase of her father's illness and death, when Anna became the torch-bearer and protector of her father's works, and eventually became the leading figure in the International Psychoanalytic Association.

Richly annotated with editorial comments, this unique volume of correspondence between Sigmund and Anna Freud is an invaluable source of historical documentation about the formation and development of psychoanalysis and the early decades of the psychoanalytic movement.

Editorial Review

Review

"Perfectly collated, ordered, logged; every bit of background that could be found has been meticulously researched and impartially presented."

The Independent

"In this remarkable book, Anna also emerges as intelligent, and sometimes both feisty and capable, eschewing, without ever quite saying so, conventional choices made by so many of her contemporaries."

Literary Review

"This compendious volume, expertly translated and annotated, provides a riveting insight into the relations between the two psychoanalysts in the Freud household - the Professor, himself, and Anna, the daughter he named his Antigone. Here the everyday Freud, the paterfamilias, chides and encourages Anna through what was in her own description a 'stupid, not reasonable' adolescence marked by a 'fervent overzealousness'. Later, they exchange views on congresses and psychoanalysts, as well as her lecture in Oxford, 'no disgrace for family'. Still later, it is Anna who does the caring. This exchange of letters and postcards, with ever illuminating notes, has the heft of an intimate biography. I couldn't put it down."

Lisa Appignanesi, Chair of the Freud Museum London

and author of *Mad, Bad and Sad*

"This excellent edition is certainly the most significant addition to the writing about Freud and psychoanalysis for some time. It is not only a compelling document of a very special father-daughter relationship and its ramifications, but also an essential contribution to the historical understanding of two of the most influential figures of the 20th century."

Andreas Mayer, École des Hautes Études en Sciences Sociales, Paris and author of *Sites of the Unconscious. Hypnosis and the Emergence of the Psychoanalytic Setting*

About the Author

Sigmund Freud (1856-1939) was the founder of psychoanalysis and one of the most important and influential thinkers of the last 100 years.

Anna Freud (1895-1982) was the sixth and final child of Sigmund Freud, and followed her father into the burgeoning profession of psychoanalysis, producing her own ground-breaking research.

Nick Somers is the translator

Users Review

From reader reviews:

Dana Hanley:

The book Correspondence can give more knowledge and also the precise product information about everything you want. So just why must we leave a very important thing like a book Correspondence? Several

of you have a different opinion about publication. But one aim that book can give many details for us. It is absolutely appropriate. Right now, try to closer with the book. Knowledge or information that you take for that, you may give for each other; you are able to share all of these. Book Correspondence has simple shape but the truth is know: it has great and big function for you. You can seem the enormous world by wide open and read a book. So it is very wonderful.

Jennifer Case:

Reading can called imagination hangout, why? Because when you are reading a book especially book entitled Correspondence your mind will drift away trough every dimension, wandering in each and every aspect that maybe mysterious for but surely can become your mind friends. Imaging each word written in a publication then become one contact form conclusion and explanation in which maybe you never get previous to. The Correspondence giving you one more experience more than blown away your brain but also giving you useful information for your better life in this era. So now let us explain to you the relaxing pattern this is your body and mind is going to be pleased when you are finished reading it, like winning a sport. Do you want to try this extraordinary spending spare time activity?

Jerry Sonnier:

This Correspondence is great reserve for you because the content which is full of information for you who also always deal with world and possess to make decision every minute. This kind of book reveal it facts accurately using great organize word or we can state no rambling sentences in it. So if you are read that hurriedly you can have whole facts in it. Doesn't mean it only provides straight forward sentences but challenging core information with wonderful delivering sentences. Having Correspondence in your hand like getting the world in your arm, info in it is not ridiculous a single. We can say that no guide that offer you world with ten or fifteen small right but this book already do that. So , it is good reading book. Hey Mr. and Mrs. stressful do you still doubt this?

Scot Vines:

As we know that book is very important thing to add our information for everything. By a book we can know everything we wish. A book is a set of written, printed, illustrated or even blank sheet. Every year ended up being exactly added. This reserve Correspondence was filled in relation to science. Spend your time to add your knowledge about your scientific disciplines competence. Some people has distinct feel when they reading any book. If you know how big advantage of a book, you can truly feel enjoy to read a e-book. In the modern era like now, many ways to get book that you simply wanted.
