Laboratory Experiments in Microbiology (6th Edition) By Ted R. Johnson, Christine L. Case

Newly revised to accompany *Microbiology: An Introduction, Seventh Edition* by Tortora, Funke, and Case, this lab manual includes 57 experiments that demonstrate the broad spectrum of microbiology. Intended as a manual of basic microbiologic techniques, this popular lab manual features applications in diverse areas, including the biological sciences, the allied health sciences, agriculture, environmental science, nutrition, pharmacy, and various pre-professional programs. Experiments have been refined in this new edition to encourage readers to develop critical thinking skills as well as learn basic facts and technical skills. Material with direct application to clinical and commercial labs is included whenever possible, and increased emphasis is placed on lab safety. For college instructors and students.

Editorial Review

From the Back Cover

Newly revised to accompany *Microbiology: An Introduction*, Seventh Edition by Tortora, Funke, and Case, this lab manual includes 57 experiments that demonstrate the broad spectrum of microbiology. Intended as a manual of basic microbiologic techniques, this popular lab manual features applications in diverse areas, including the biological sciences, the allied health sciences, agriculture, environmental science, nutrition, pharmacy, and various pre-professional programs. Experiments have been refined in this new edition to encourage readers to develop critical thinking skills as well as learn basic facts and technical skills. Material with direct application to clinical and commercial labs is included whenever possible, and increased emphasis is placed on lab safety. For college instructors and students.

About the Author

Ted R. Johnson is a biology professor at St. Olaf College, where he has been teaching for 20 years. He earned a B.A. from Augsburg College and an M.A., and Ph.D. from the University of Illinois at Chicago. He teaches courses in microbiology, immunology, and cancer biology and his research interests include cancer biology, immunology, aging, and soil microbiology.

Christine L. Case is a registered microbiologist and professor of microbiology at Skyline College in San Bruno, California, where she has taught for the past 25 years. In addition to teaching and affiliations with numerous scientific organizations, Chris contributes regularly to professional literature, develops innovative instructional methodologies, and maintains a personal and professional commitment to conservation and the importance of science in society. She is an avid photographer and many of her photographs appear in ***Microbiology: An Introduction***.

Users Review

From reader reviews:

Gregory Holloman:

Have you spare time to get a day? What do you do when you have far more or little spare time? Sure, you can choose the suitable activity for spend your time.
