How to Think Straight: An Introduction to Critical Reasoning By Antony Flew

Practical reasoning and clear thinking are essential for everyone if we are to make sense of the information we receive each day. Being able to quickly know the difference between valid and invalid arguments, the contradictory versus the contrary, vagueness and ambiguity, contradiction and self-contradiction, the truthful and the fallacious, separates clear thinkers from the crowd.

How to Think Straight lays the foundation for critical reasoning by showing many ways in which our thinking goes awry. Celebrated philosopher Antony Flew entertainingly instructs on the many and varied faults that occur in argument, the power of reason, how to challenge assertions and find evidence, and how not to be persuaded by half-truths. Flew also examines poor reasoning, and why we should be concerned with finding the truth.

Lucid, terse, and sensible, with study questions and exercises to help along the way, this enlightening second edition will help you develop the skills necessary to argue and reason effectively by following a few simple, easy-to-remember directions.

From the Trade Paperback edition.

Editorial Review

Review

"The book is well-written: the style is lean--one needs to read every sentence, no skimming or lapsing momentarily--but clear." -- *Humanist in Canada*, Winter 2001/2002

About the Author

Antony Flew is emeritus professor of philosophy at Reading University, England, and the author of *Atheistic Humanism*; *God, Freedom, and Immortality*; *Thinking About Social Thinking*; and *How to Think Straight*.

Users Review

Randy Scott:

As a college student exactly feel bored in order to reading. If their teacher inquired them to go to the library or make summary for some book, they are complained. Just tiny students that has reading's spirit or real their leisure activity. They just do what the trainer want, like asked to the library. They go to generally there but nothing reading critically. Any students feel that looking at is not important, boring and can't see colorful pictures on there. Yeah, it is to become complicated. Book is very important to suit your needs. As we know that on this age, many ways to get whatever we really wish for. Likewise word says, many ways to reach Chinese's country. Therefore , this How to Think Straight: An Introduction to Critical Reasoning can make you feel more interested to read.
