### **Editorial Review**

From Publishers Weekly

Hitler hated Poles only slightly less than Jews; exterminating Poles and other Slavs was part of the Nazi master-plan. During the German occupation, three million Gentile Poles (and as many Polish Jews) were killed by mass executions, starvation or in labor camps; there were 2000 extermination and labor camps in Poland for Jews and Gentiles alike. One million non-Jewish Poles were deported in cattle cars to Germany and elsewhere; Polish children were sent to the Reich, where it was determined whether they were suitable for "Germanization" or should be slaughtered. This eloquent, gripping account of the Nazis' systematic genocide of Poles, and of the Polish resistance movement, written by a professor at Tennessee Technological University, is exhaustively researched and fills gaps in our knowledge. Lukas disputes Holocaust historians who have portrayed Poles as anti-Semites who did little to help the Jews with evidence that Poles of all classes gave assistance to persecuted Jews. To explain the hostility between Gentiles and Jews in the Polish underground, he cites Jews' close ties to the Communist movement. His arguments will provoke debate, and his important study deserves wide attention. January

From Library Journal

Though many nations were forced to endure Nazi tyranny during World War II, nowhere was its fury more devastating than in Poland. Poland suffered more than six million casualties and witnessed the decimation of Europe's largest national Jewish community. Even if it does not fully convey the immense suffering experienced by Poles, Garlinski's book does represent a solid chronicle of Poland's heroic struggle against the Nazis. Drawing heavily on sources belonging to the Polish government-in-exile in London, the narrative clearly stresses key political, military, and diplomatic events in a concise, objective fashion. Though himself a London exile, Garlinski exhibits little bitterness toward the Western powers, who gradually withdrew their support for the exiles. Lukas's book, a much more specialized treatment of the Polish tragedy, never fails to convey the continual horrors inflicted on a nation under Nazi rule. Central to the work is the assertion that the Holocaust in Poland was not confined to Jews but was a systematic atrocity designed to destroy the entire Polish nation. The book is a product of exhaustive research and contains excellent analyses of the relationship of Poland's Jewish and Gentile communities, the development of the resistance, the exile leadership, and the Warsaw uprisings. Lukas is highly critical of earlier works dealing with the topic and continually rejects the claim that Polish Gentiles were rabid anti-Semites. This is a superior work which, along with Garlinski, is suitable for all academic libraries. Joseph W. Constance, Jr., Georgia State Univ. Lib., Atlanta
