Editorial Review

About the Author

Raymond A. Barnett, a native of California, received his B.A. in mathematical statistics from the University of California at Berkeley and his M.A. in mathematics from the University of Southern California. He has been a member of the Merritt College Mathematics Department, and was chairman of the department for four years. Raymond Barnett has authored or co-authored eighteen textbooks in mathematics, most of which are still in use. In addition to international English editions, a number of books have been translated into Spanish. Co-authors include Michael Ziegler, Marquette University; Thomas Kearns, Northern University; Charles Burke, City College of San Francisco; John Fuji, Merritt College; and Karl Byleen, Marquette University. Michael R. Ziegler received his B.S. from Shippensburg State College and his M.S. and Ph.D. from the University of Delaware. After completing post doctoral work at the University of Kentucky, he was appointed to the faculty of Marquette University where he currently holds the rank of Professor in the Department of Mathematics, Statistics, and Computer Science. Dr. Ziegler has published over a dozen research articles in complex analysis and has co-authored eleven undergraduate mathematics textbooks with Raymond A. Barnett, and more recently, Karl E. Byleen. Karl E. Byleen received the B.S., M.A. and Ph.D. degrees in mathematics from the University of Nebraska. He is currently an Associate Professor in the Department of Mathematics, Statistics and Computer Science of Marquette University. He has published a dozen research articles on the algebraic theory of semigroups. **Why We wrote This Book:** This text is written for student comprehension. Great care has been taken to write a book that is mathematically correct and accessible. We emphasize computational skills, ideas, and problem solving rather than mathematical theory. Most derivations and proofs are omitted except where their inclusion adds significant insight into a particular concept. General concepts and results are usually presented only after particular cases have been discussed. Graphing calculators and computers are playing an increasing role in mathematics education and in real-world applications of mathematics. This book deals with the mathematics that is required to use modern technology effectively as an **OPTIONAL** feature. In appropriate places in the text, there are clearly identified examples and exercises related to graphing calculators and computers, illustrations of applications of spreadsheets, and sample computer output. All of these may be omitted without loss of continuity.

Users Review

From reader reviews:

Detra Satterwhite:

This book entitled Calculus for Business, Economics, Life Sciences, and Social Sciences, Student Solutions Manual, MyMathLab Inside Star Sticker and MyMathLab -- Glue-in Access Card (13th Edition) to be one of several books that will best seller in this year, that's because when you read this e-book you can get a lot of benefit onto it. You will easily to buy this kind of book in the book shop or you can order it by means of online. The publisher with this book sells the e-book too. It makes you more easily to read this book, as you can read this book in your Cell phone. So there is no reason to you to past this e-book from your list.

Juan Moses:

Why? Because this Calculus for Business, Economics, Life Sciences, and Social Sciences, Student Solutions Manual, MyMathLab Inside Star Sticker and MyMathLab -- Glue-in Access Card (13th Edition) is an unordinary book that the inside of the book waiting for you to snap this but latter it will surprise you with the secret it inside. Reading this book adjacent to it was fantastic author who write the book in such incredible way makes the content inside of easier to understand, entertaining way but still convey the meaning completely. So , it is good for you for not hesitating having this any more or you going to regret it. This phenomenal book will give you a lot of positive aspects than the other book get such as help improving your talent and your critical thinking method. So , still want to postpone having that book? If I were being you I will go to the book store hurriedly.

Esther Belote:

Do you like reading a book? Confuse to looking for your favorite book? Or your book has been rare? Why so many question for the book? But just about any people feel that they enjoy intended for reading. Some people likes looking at, not only science book and also novel and Calculus for Business, Economics, Life Sciences, and Social Sciences, Student Solutions Manual, MyMathLab Inside Star Sticker and MyMathLab - - Glue-in Access Card (13th Edition) or even others sources were given know-how for you. After you know how the good a book, you feel want to read more and more. Science publication was created for teacher as well as students especially. Those guides are helping them to increase their knowledge. In some other case, beside science reserve, any other book likes Calculus for Business, Economics, Life Sciences, and Social Sciences, Student Solutions Manual, MyMathLab Inside Star Sticker and MyMathLab -- Glue-in Access Card (13th Edition) to make your spare time a lot more colorful. Many types of book like here.

Gilbert Phillips:

A lot of book has printed but it differs from the others. You can get it by internet on social media. You can choose the most beneficial book for you, science, amusing, novel, or whatever by simply searching from it. It is identified as of book Calculus for Business, Economics, Life Sciences, and Social Sciences, Student Solutions Manual, MyMathLab Inside Star Sticker and MyMathLab -- Glue-in Access Card (13th Edition). You can add your knowledge by it. Without departing the printed book, it could possibly add your knowledge and make an individual happier to read. It is most important that, you must aware about reserve. It can bring you from one destination to other place.
