Editorial Review

From School Library Journal

Grade 5-8?As with *Black Ships Before Troy* (Delacorte, 1993), Sutcliff's retelling of *The Illiad*, the story of *The Odyssey* is presented in an accessible, enjoyable format. A brief prologue sets the scene after the fall of Troy. The chapters, each of which tells of a challenge Odysseus faced, are not episodic, but rather come together as a continuing story. Sutcliff creates an intimate portrait of a man whose greatest desire is to return to his wife and home, despite great temptations. He is portrayed as a conquering hero-god, but with a touch of sadness. The reteller uses storytelling techniques to engage readers and the language and rhythm of a bard to maintain the story's flow. The detailed watercolor illustrations are dreamlike and soft-edged. They set the mood for the essence of particular episodes and display the horrors of battle where appropriate. Reading the first book would clarify Odysseus's entire tale, but is not necessary to the enjoyment of this volume. The pronunciation guide and map are helpful. Readers will enjoy this classic adventure, and they may be inspired to explore Greek mythology further.?Cheri Estes, Detroit Country Day School Middle School, Beverly Hills, MI

Gr. 5[^]-8. A companion to *Black Ships before Troy* (1993), this handsome, large-size volume retells Homer's *Odyssey* with thrilling drama. There's no clashing climax like the *Iliad's* Wooden Horse, but the story of the hero's long years of wandering in the wilderness has the mythic power of everyone's search for home. Several episodes are just right for reading aloud, from the blinding of the Cyclops and his howl of revenge to the quiet courage of Penelope trying to hold off the suitors. Lee's watercolor paintings in shades of blue and brown capture the furious action of the wild ocean and the rocky shore, as in the double-page spread of the ship caught between Scylla and Charybdis. Several pictures also focus on lonely people wrenched apart. Sutcliff's narrative style is not as taut as in *Black Ships*, but in the best parts, she fuses epic grandeur with a direct simplicity that will bring the universal story home. *Hazel Rochman*

From Kirkus Reviews

In this sequel to *Black Ships Before Troy* (1993), Sutcliff and Lee dig into Homer's *Odyssey*, with happy results. Among the volume's virtues is Sutcliff's text, which preserves a certain formality of language, yet remains accessible for the target audience. She does an especially graceful job of winnowing the windy Telemachus section down to its essential elements. All the important episodes are retained; further, the telling makes clear some details that are often vague in other versions. The second major virtue comes through Lee's spectacular paintings, which match and illuminate the text. Beautiful and detailed, with occasional gory bits to draw in readers (and an exposed breast, on the sleeping Princess Nausicaa), the pictures are obviously the result of careful research and reward close scrutiny. A gorgeous book, more than worthy of its predecessor. (Folklore. 10+) -- *Copyright ©1996, Kirkus Associates, LP. All rights reserved.*

Edward Foland:

Hey guys, do you would like to finds a new book to study? May be the book with the name The Wanderings of Odysseus suitable to you? The particular book was written by well-known writer in this era. The book untitled The Wanderings of Odysseus is the main one of several books that will everyone read now. This specific book was inspired a number of people in the world. When you read this book you will enter the new dimensions that you ever know ahead of. The author explained their plan in the simple way, so all of people can easily to be aware of the core of this reserve. This book will give you a large amount of information about this world now. So you can see the represented of the world with this book.

Larry Morris:

As a pupil exactly feel bored to help reading. If their teacher questioned them to go to the library or to make summary for some book, they are complained. Just tiny students that has reading's internal or real their hobby. They just do what the instructor want, like asked to go to the library. They go to presently there but nothing reading significantly. Any students feel that examining is not important, boring in addition to can't see colorful photos on there. Yeah, it is being complicated. Book is very important to suit your needs. As we know that on this era, many ways to get whatever we would like. Likewise word says, many ways to reach Chinese's country. So , this The Wanderings of Odysseus can make you feel more interested to read.
