## Factorization of Linear Operators and Geometry of Banach Spaces (Cbms Regional Conference Series in Mathematics) By Gilles Pisier

This book surveys the considerable progress made in Banach space theory as a result of Grothendieck's fundamental paper *Resume de la theorie metrique des produits tensoriels topologiques*. The author examines the central question of which Banach spaces  $X$  and  $Y$  have the property that every bounded operator from  $X$  to  $Y$  factors through a Hilbert space, in particular when the operators are defined on a Banach lattice, a  $C^*$ -algebra or the disc algebra and  $H^\infty$ . He reviews the six problems posed at the end of Grothendieck's paper, which have now all been solved (except perhaps the exact value of Grothendieck's constant), and includes the various results which led to their solution. The last chapter contains the author's construction of several Banach spaces such that the injective and projective tensor products coincide; this gives a negative solution to Grothendieck's sixth problem. Although the book is aimed at mathematicians working in functional analysis, harmonic analysis and operator algebras, its detailed and self-contained treatment makes the material accessible to nonspecialists with a grounding in basic functional analysis. In fact, the author is particularly concerned to develop very recent results in the geometry of Banach spaces in a form that emphasizes how they may be applied in other fields, such as harmonic analysis and  $C^*$ -algebras.

### **Editorial Review**

### **Users Review**

#### **From reader reviews:**

##### **Robert Crumrine:**

What do you concentrate on book? It is just for students because they are still students or it for all people in the world, the actual best subject for that? Simply you can be answered for that question above. Every person has distinct personality and hobby for every single other. Don't to be pressured someone or something that they don't need do that. You must know how great and also important the book Factorization of Linear Operators and Geometry of Banach Spaces (Cbms Regional Conference Series in Mathematics). All type of book can you see on many sources. You can look for the internet methods or other social media.

##### **Tatum Martin:**

Playing with family in the park, coming to see the ocean world or hanging out with close friends is thing that usually you might have done when you have spare time, and then why you don't try issue that really opposite from that. Just one activity that make you not experiencing tired but still relaxing, trilling like on roller coaster you have been ride on and with addition of knowledge. Even you love Factorization of Linear Operators and Geometry of Banach Spaces (Cbms Regional Conference Series in Mathematics), you are able to enjoy both. It is very good combination right, you still need to miss it? What kind of hang-out type is it? Oh can happen its mind hangout guys. What? Still don't have it, oh come on its referred to as reading friends.

##### **Debra Riggs:**

Is it a person who having spare time subsequently spend it whole day by means of watching television programs or just laying on the bed? Do you need something new? This Factorization of Linear Operators and Geometry of Banach Spaces (Cbms Regional Conference Series in Mathematics) can be the respond to, oh how comes? A fresh book you know. You are therefore out of date, spending your free time by reading in this brand new era is common not a geek activity. So what these guides have than the others?

##### **Virginia Hughes:**

Do you like reading a e-book? Confuse to looking for your chosen book? Or your book ended up being rare? Why so many concern for the book? But any kind of people feel that they enjoy regarding reading. Some people likes reading through, not only science book but additionally novel and Factorization of Linear Operators and Geometry of Banach Spaces (Cbms Regional Conference Series in Mathematics) or even others sources were given knowledge for you. After you know how the good a book, you feel wish to read more and more. Science book was created for teacher or students especially. Those textbooks are helping

them to bring their knowledge. In some other case, beside science guide, any other book likes Factorization of Linear Operators and Geometry of Banach Spaces (Cbms Regional Conference Series in Mathematics) to make your spare time far more colorful. Many types of book like here.
