### Editorial Review

From the Back Cover

**"Good ideas are a dime a dozen; successful businesses are rare. Give yourself a head start to success: implement the business planning strategies in this unique book."**

**—Don R. Campbell, *Serial Entrepreneur And Founding Partner, Real Estate Investment Network***

Businesses are meant to be run by people who think like entrepreneurs and execute like managers. The entrepreneur has the innovative idea. The manager executes the operating model that underlies the business vision.

The wildly popular *Dragons' Den* attracts more than a million viewers a week. Canadians love to watch the show for the new ideas and, like the Dragons, decide if a pitch is investor-ready. As is often the case on the *Den*, entrepreneurs leave empty-handed. The entrepreneurial graveyard is filled with millions of great ideas that were not underpinned by an execution strategy.

*The Dragons' Den Guide to Investor-Ready Business Plans* is your guide to linking an entrepreneurial vision with strategy and execution. It is this plan—which details how you are going to create, market, and sell your product or service—that will impact the decision of a potential investor. By following the step-by-step strategies in this guide, you will be able to create a professional business plan that will provide investors with all they need to know about your business vision and how you intend to make money. In addition, you will learn how to find investors and how to create a pitch that will get their attention.
