Editorial Review

From School Library Journal

Grade 4–8—Haddix's latest science fiction series starts off with a bang in this nail-biter. A plane arrives at an airline gate unnoticed by radar and most personnel. There are no flight attendants, no pilot, in fact no adults at all, but there are 36 passengers—each seat is inhabited by an infant. Thirteen years later in Ohio, teenage adoptees Jonah and his friend Chip begin receiving ominous messages declaring that they are among "the missing" and that someone is coming to find them. Frightened yet intrigued, the boys begin a search for their real identities with the help of Jonah's younger sister. Their search leads them to a discovery that strains credulity and leads them into danger greater than they ever imagined possible. The story is driven by an exciting plot rather than extensive character development, and the teens act independently of the adults, who appear as "bad guys" or are basically useless. If used in a classroom, the revelation of the babies' identities can be used to kick off a history lesson or two. This book's exciting premise and cliff-hanger ending will leave readers on the edge of their seats and begging for more.—*Heather M. Campbell, Philip S. Miller Library, Castle Rock, CO*

Review

* "In a tantalizing opener to a new series, Haddix taps into a common childhood fantasy--that you are really the offspring of royalty or famous people, and were somehow adopted by an ordinary family--and one-ups it by adding in time travel...Readers will be hard-pressed to wait for the next installment."--*Publishers Weekly*, starred review

"Haddix admirably balances the exposition necessary to shape the first novel of a series while still providing enough life-threatening situations, governmental intrigue, and futuristic weaponry to make this an action-packed stand-alone novel. Readers will surely return for future installments...Science fiction and adventure fans will find much to enjoy in this flashy, suspenseful volume."--*The Bulletin of the Center for Children's Books*

"Fans of Haddix's Shadow Children books will want to jump on this time-travel adventure...The author grabs the readers' attention from the first scene...intriguing enough...to keep kids reading what promises to be an exciting trip through history."--*Kirkus Reviews*

"As in her Among the Hidden series, Haddix once again demonstrates her talent for penning page-turners kids will like."--*Booklist*

"Haddix's latest science fiction series starts off with a bang in this nail-biter...This book's exciting premise and cliff-hanger ending will leave readers on the edge of their seats and begging for more."--*School Library Journal*
