## **Editorial Review**

### **From the Inside Flap**

Do you believe that people have the power to change the world if they put their minds to it? Have you ever been in a situation where you knew you could do something to help someone, but did not because you didn't think it would matter? Have you ever wondered what would happen if you did one kind thing for three people, and they did the same?

You have probably heard about chaos theory, and how minute changes in complex systems can have enormous consequences. Though this theory is often applied to economics and business, its applications have perhaps the greatest potential in the realm of our relationships--our families and our communities.

Inspired to write this book by colleagues who asked him what they could really do to effect change in the world, King Duncan explains the simple premise: one life touches another life and potentially both are changed; one life touches another life and potentially the entire world is changed.

Duncan explores this premise through anecdotes of both famous and everyday people, places, and events, and with concrete examples of things we can do to make amazing things happen.

King Duncan is a professional speaker and author of two other books. In 1993, he was the national winner of the International Platform Association's prestigious Speaker's Ladder Award. He lives in Knoxville, Tennessee, with his wife, Selina, and he owns and manages his communications company, Seven Worlds Corporation.

### **From the Back Cover**

The Amazing Law of Influence is a truly remarkable book."

--Zig Ziglar, author of See You at the Top

If you knew you could exert a positive influence on the world, would you really do it?

One person can make a difference. This reader-friendly book looks at chaos theory--how small changes can trigger monumental transformations.

Scientists have long studied the principles associated with atomic structure and behavior--that through a chain of reactions, a butterfly flapping its wings in Malibu can produce a monsoon in Malaysia months later--but its application to human behavior has been regarded merely as "a nice idea."

But is it just that, or is it really possible to change the world, one's community, or even relationships within a family? Full of engaging anecdotes and concrete advice, The Amazing Law of Influence demonstrates the importance of each life to the human family. It goes even further than that to show how it is possible for one person to make a lasting change to family, community, and even humanity as a whole.

### **About the Author**

Chance events can create life's path. Few individuals have dedicated their lives to studying this phenomenon. Longtime professional speaker King Duncan is one of those few, using his distinctive humor to spread his message about influence and fate.

## **Users Review**

### **From reader reviews:**

#### **Lela Hird:**

Do you have favorite book? In case you have, what is your favorite's book? Book is very important thing for us to understand everything in the world.
