Data and evidence don't lie—but for too long, our policy makers haven't paid them nearly enough attention. In this refreshing collaboration, an all-star team of leaders and thinkers from across the political spectrum lays out an exciting and achievable vision for the country — one where policy makers base decisions not on politics or expedience, but on the hard evidence of what really works. For anyone who believes that government must do better for America's children and their families, Moneyball for Government is a home run.
