Pro Spring By Clarence Ho, Rob Harrop, Chris Schaefer

Pro Spring updates the perennial bestseller with the latest that the Spring Framework 4 has to offer. Now in its fourth edition, this popular book is by far the most comprehensive and definitive treatment of Spring available.

With *Pro Spring*, you'll learn Spring basics and core topics, and share the authors' insights and real-world experiences with remoting, Hibernate, and EJB. Beyond the basics, you'll learn how to leverage the Spring Framework to build the various tiers or parts of an enterprise Java application: transactions, web and presentation tiers, deployment, and much more. A full sample application allows you to apply many of the technologies and techniques covered in this book and see how they work together.

The agile, lightweight, open-source Spring Framework continues to be the de facto leading enterprise Java application development framework for today's Java programmers and developers. It works with other leading open-source, agile, and lightweight Java technologies such as Hibernate, Groovy, MyBatis, and more. Spring now works with Java EE and JPA 2 as well.

After reading this definitive book, you'll be armed with the power of Spring to build complex Spring applications, top to bottom.

Editorial Review

About the Author

Clarence Ho is the Senior Java Architect of a HK-based software consultancy firm, SkywideSoft Technology Limited (www.skywidesoft.com). Having been worked in the IT field for over 20 years, Clarence had been the team leader of many in-house application development projects, as well as providing consultancy services on enterprise solutions to clients. Clarence started programming with Java in 2001, and then heavily involved in the design and development of JEE applications with technologies including EJB, Spring Framework, Hibernate, JMS, WS, etc., beginning from 2005. Since then, Clarence had made up his mind in becoming a Java Enterprise Architect. Currently Clarence is working as a consultant for an international finance institution, contributing in various areas including Java EE architectural design, education, provide recommendations on technology solutions as well as application development best practice. When have spare time, Clarence enjoys playing sports (jogging, swimming, soccer, hiking, etc.), reading, movies, hang out with friends, etc.

Users Review

From reader reviews:

Shannon Silva:

The book Pro Spring can give more knowledge and also the precise product information about everything you want. Why then must we leave the good thing like a book Pro Spring? Some of you have a different opinion about e-book. But one aim which book can give many info for us. It is absolutely appropriate. Right now, try to closer together with your book. Knowledge or info that you take for that, you are able to give for each other; you may share all of these. Book Pro Spring has simple shape however, you know: it has great and massive function for you. You can search the enormous world by wide open and read a publication. So it is very wonderful.

Luis Herrick:

What do you about book? It is not important along with you? Or just adding material when you really need something to explain what the ones you have problem? How about your time? Or are you busy man or woman? If you don't have spare time to perform others business, it is gives you the sense of being bored faster. And you have extra time? What did you do? Every individual has many questions above. They should answer that question since just their can do this. It said that about publication. Book is familiar in each person. Yes, it is suitable. Because start from on kindergarten until university need this kind of Pro Spring to read.

Adelina Foreman:

This book untitled Pro Spring to be one of several books that will best seller in this year, that's because when you read this e-book you can get a lot of benefit upon it. You will easily to buy that book in the book retail store or you can order it by way of online. The publisher on this book sells the e-book too. It makes you

quicker to read this book, since you can read this book in your Smart phone. So there is no reason for your requirements to past this guide from your list.

Kim Free:

Reading a guide can be one of a lot of task that everyone in the world likes. Do you like reading book consequently. There are a lot of reasons why people love it. First reading a guide will give you a lot of new facts. When you read a publication you will get new information due to the fact book is one of several ways to share the information or even their idea. Second, reading a book will make you more imaginative. When you reading a book especially fictional works book the author will bring you to definitely imagine the story how the people do it anything. Third, you could share your knowledge to other folks. When you read this Pro Spring, you are able to tells your family, friends as well as soon about yours publication. Your knowledge can inspire the mediocre, make them reading a book.
