Politics By Andrew Heywood

Its lively, engaging style and authoritative and comprehensive coverage have made this highly successful text the first choice introduction to politics for students and instructors alike.

The fourth edition has been systematically revised and updated to cover key developments such as the global economic crisis and the Arab Spring. The book also has a new more integrated chapter structure which makes it easier for students to see how different topics interrelate and takes better account of the increasing interdependence between domestic and world events.

With an attractive new full-colour page design, each chapter includes a range of innovative features and boxed information to aid learning and stimulate critical reflection:

- Full-page Politics in Action boxes examine major political events from around the world and reflect on their significance for political science.
- Debating boxes introduce the key controversies within politics and highlight arguments both for and against a particular proposition.
- Illustrated Key Thinker profiles give detail about important figures and their ideas
- Concept boxes offer a fuller discussion of important political terms and concepts, particularly those with complex or contested meanings

Editorial Review

Review

'A remarkable textbook - and even better in this enhanced and redesigned new edition! Balanced and authoritative, and very effectively supported with informative and insightful text boxes, *Politics* provides a wonderfully accessible and comprehensive introduction to the subject.' - Jonathon W. Moses, Norwegian University of Science and Technology, Trondheim, Norway.

'If you want to understand what politics can do, what it can't do and how it works I can think of no better starting point. This new edition more than ever succeeds in bringing the subject to life for those coming to the subject for the first time while offering fresh insights and perspectives for all.' - Gerry Stoker, University of Southampton, UK

'I am a huge fan! This is how the subject should be taught - with full coverage of politics and government but sensitive to theoretical issues, informed by history and broader economic and social trends, and encouraging engagement with the key debates of our times. This is a great place to start putting together what is needed to become a fully-rounded political scientist.' - David Coates, Wake Forest University, USA

Reviews of previous edition:

'*Politics* is simply the best introductory guide available for the subject. Andrew Heywood defines the theory and practice of politics in a rigorous, lively and highly accessible way. This book is indispensable for any student of politics and a "must" for introductory reading lists for politics tutors.' - Professor Jon Tonge, University of Liverpool, UK

'In addition to Heywood's accessible style of writing, the book certainly benefits from many of the pedagogical features incorporated into the text. The sets of questions, outlining of key concepts, mini biographical profiles of specific philosophers and important people, focus boxes, diagrammatic representations and suggestions for further reading are all valuable, informative features and aide-memoires.' - Dr Jacqui Briggs, Senior Lecturer in Politics, University of Lincoln, UK

'I have enjoyed using *Politics* and find it a font of knowledge at my finger tips.' - Dr Rae Nicholl, University of South Pacific, Fiji

'Overall, *Politics* offers a thorough and solid overview of the essential material for an introduction to political science or comparative politics.' - Professor Joel D. Wolfe, University of Cincinnati, USA

Users Review

From reader reviews:

Andrew Meadows:

In other case, little individuals like to read book Politics. You can choose the best book if you like reading a book. Provided that we know about how is important any book Politics. You can add expertise and of course you can around the world by just a book. Absolutely right, due to the fact from book you can recognize everything! From your country until eventually foreign or abroad you will find yourself known. About simple point until wonderful thing you could know that. In this era, we could open a book or perhaps searching by internet product. It is called e-book. You can utilize it when you feel uninterested to go to the library. Let's study.

David Burch:

Now a day folks who Living in the era everywhere everything reachable by connect to the internet and the resources inside it can be true or not involve people to be aware of each information they get. How many people to be smart in getting any information nowadays? Of course the reply is reading a book. Reading through a book can help people out of this uncertainty Information mainly this Politics book since this book offers you rich details and knowledge. Of course the data in this book hundred per-cent guarantees there is no doubt in it you probably know this.

Alice Concannon:

This Politics are reliable for you who want to be described as a successful person, why. The reason of this Politics can be one of the great books you must have is usually giving you more than just simple looking at food but feed a person with information that probably will shock your before knowledge. This book is usually handy, you can bring it all over the place and whenever your conditions in e-book and printed types. Beside that this Politics giving you an enormous of experience like rich vocabulary, giving you tryout of critical thinking that could it useful in your day task. So , let's have it appreciate reading.

Tyler Cote:

That publication can make you to feel relax. This book Politics was colourful and of course has pictures around. As we know that book Politics has many kinds or style. Start from kids until adolescents. For example Naruto or Investigation company Conan you can read and believe that you are the character on there. Therefore not at all of book are generally make you bored, any it makes you feel happy, fun and loosen up. Try to choose the best book in your case and try to like reading in which.
