Editorial Review

From the Back Cover

Updated examples with the most current U.S. and world data Two complete self examinations New chapter on Time Series Econometrics Perfect for pre-test review

Courses: Statistics and Econometrics Statistical Methods in Economics Micro-Economics Macro-Economics Quantitative Methods in Economics Mathematical Economics Math for Economists Math for Social Sciences

SCHAUM'S OUTLINES OVER 30 MILLION SOLD

Master the fundamentals of statistics and econometrics with Schaum's--the high-performance study guide. It will help you cut study time, hone problem-solving skills, and achieve your personal best on exams and projects!

Students love Schaum's Outlines because they produce results. Each year, hundreds of thousands of students improve their test scores and final grades with these indispensable study guides.

Get the edge on your classmates. Use Schaum's!

If you don't have a lot of time but want to excel in class, this book helps you: Use detailed examples to solve problems Brush up before tests Find answers fast Study quickly and more effectively Get the big picture without poring over lengthy textbooks

Schaum's Outlines give you the information your teachers expect you to know in a handy and succinct format--without overwhelming you with unnecessary jargon. You get a complete overview of the subject. Plus, you get plenty of practice exercises to test your skill. Compatible with any classroom text, Schaum's let you study at your own pace and remind you of all the important facts you need to remember--fast! And Schaum's are so complete, they're perfect for preparing for graduate or professional exams.

Inside, you will find: Full coverage of statistics and econometrics, from Nonparametric Tests to Causality Tests New chapters on the Logit Model and the Probit Model Hundreds of solved problems, including step-by-step annotations New sections on Financial and Time Series Econometrics A complete and comprehensive review of the subject

If you want top grades and a thorough understanding of statistics and econometrics, this powerful study tool is the best tutor you can have!

Chapters include: Introduction Descriptive Statistics Probability and Probability Distributions Statistical Inference: Estimation Statistical Inference: Testing Hypotheses Simple Regression Analysis Multiple Regression Analysis Further Techniques and Applications in Regression Analysis Problems in Regression Analysis Simultaneous-Equations Methods Time Series Methods Computer Applications in Econometrics Binomial Distribution Poisson Distribution Standard Normal Distribution Table of Random Numbers Student's Distribution F Distribution Durbin-Watson Statistic Wilcoxon W Kolmogorov-Smirnov Critical Values ADF Critical Values Data Sources on the Web

About the Author

Dominick Salvatore is a professor and the chairperson of the Department of Economics at Fordham University in New York City. He is the author of the textbook *International Economics*, 7/e (2001) and *Managerial Economics in a Global Economy*, 4/e (2001). He also authored *Schaum's Outline of International Economics*, 4/e (1996) and *Schaum's Outline of Microeconomic Theory*, 3/e (1992) and coauthored, with Professor Diulio, *Schaum's Outline of Principles of Economics*, 2ed (1996). His research has been published in numerous leading scholarly journals and presented at many national and international

conferences.

Derrick Reagle was an assistant professor of economics at Fordham University and a faculty member of Fordham's Graduate Program in International Political Economy and Development.

Users Review

From reader reviews:

Merideth Davis:

Book is written, printed, or highlighted for everything. You can learn everything you want by a reserve. Book has a different type. As it is known to us that book is important thing to bring us around the world. Adjacent to that you can your reading talent was fluently. A e-book Schaum's Outline of Statistics and Econometrics, Second Edition (Schaum's Outlines) will make you to end up being smarter. You can feel far more confidence if you can know about anything. But some of you think this open or reading some sort of book make you bored. It is not make you fun. Why they might be thought like that? Have you looking for best book or acceptable book with you?

Nancy Fisher:

What do you about book? It is not important to you? Or just adding material when you want something to explain what the one you have problem? How about your free time? Or are you busy man or woman? If you don't have spare time to perform others business, it is gives you the sense of being bored faster. And you have spare time? What did you do? Every person has many questions above. They have to answer that question due to the fact just their can do which. It said that about e-book. Book is familiar in each person. Yes, it is suitable. Because start from on pre-school until university need this particular Schaum's Outline of Statistics and Econometrics, Second Edition (Schaum's Outlines) to read.

Myra Flory:

Are you kind of active person, only have 10 or perhaps 15 minute in your day to upgrading your mind ability or thinking skill possibly analytical thinking? Then you are receiving problem with the book when compared with can satisfy your short space of time to read it because this all time you only find book that need more time to be study. Schaum's Outline of Statistics and Econometrics, Second Edition (Schaum's Outlines) can be your answer as it can be read by you who have those short free time problems.

Kathy Donnelly:

That reserve can make you to feel relax. This particular book Schaum's Outline of Statistics and Econometrics, Second Edition (Schaum's Outlines) was multi-colored and of course has pictures around. As we know that book Schaum's Outline of Statistics and Econometrics, Second Edition (Schaum's Outlines) has many kinds or type. Start from kids until youngsters. For example Naruto or Investigator Conan you can read and believe you are the character on there. Therefore not at all of book are generally make you bored, any it can make you feel happy, fun and chill out. Try to choose the best book for you personally and try to

like reading in which.
