Precalculus: Functions and Graphs (4th Edition) By Mark Dugopolski

For courses in Precalculus.

The Right Tools to Drive Your Success

Dugopolski's ***Precalculus: Functions and Graphs, Fourth Edition*** gives students the essential strategies they need to make the transition to calculus. Along the way, students see how the algebra connects to their future calculus courses, with tools like *Foreshadowing Calculus* and *Concepts of Calculus*. The author's emphasis on problem solving and critical thinking is enhanced by a new **MyMathLab** course, where students will find new Video Assessment questions tied to section lecture videos; Getting Ready material to help learn necessary prerequisite skills; Guided Visualizations, and more!

Also available with MyMathLab

MyMathLab is an online homework, tutorial, and assessment program designed to work with this text to engage students and improve results. Within its structured environment, students practice what they learn, test their understanding, and pursue a personalized study plan that helps them absorb course material and understand difficult concepts.

This Media Update features an enhanced MyMathLab course. This © 2017 version of the textbook is completely compatible with the earlier © 2013 version.

Editorial Review

About the Author

Mark Dugopolski was born in Menominee, Michigan. After receiving a B.S. from Michigan State University, he taught high school for four years, and then went on to receive an M.S. in mathematics from Northern Illinois University. He also received a Ph.D. in the area of topology from the University of Illinois at Champaign-Urbana. Mark has been teaching at Southeastern Louisiana in Hammond, LA, ever since. Mark has been writing textbooks for about fifteen years. He is married and has two daughters, and enjoys playing tennis, jogging, and riding his bicycle in his spare time.

Users Review

From reader reviews:

Whitney Obrien:

Do you one of people who can't read pleasurable if the sentence chained inside the straightway, hold on guys this kind of aren't like that. This Precalculus: Functions and Graphs (4th Edition) book is readable by simply you who hate those perfect word style. You will find the information here are arrange for enjoyable looking at experience without leaving also decrease the knowledge that want to give to you. The writer associated with Precalculus: Functions and Graphs (4th Edition) content conveys objective easily to understand by lots of people. The printed and e-book are not different in the articles but it just different such as it. So , do you even now thinking Precalculus: Functions and Graphs (4th Edition) is not loveable to be your top list reading book?

Patricia Nebeker:

Reading can called brain hangout, why? Because if you are reading a book specifically book entitled Precalculus: Functions and Graphs (4th Edition) your thoughts will drift away trough every dimension, wandering in each aspect that maybe mysterious for but surely can be your mind friends. Imaging just about every word written in a guide then become one application form conclusion and explanation this maybe you never get prior to. The Precalculus: Functions and Graphs (4th Edition) giving you a different experience more than blown away your head but also giving you useful details for your better life within this era. So now let us present to you the relaxing pattern here is your body and mind will likely be pleased when you are finished reading it, like winning a sport. Do you want to try this extraordinary shelling out spare time activity?

Grady Comer:

Your reading sixth sense will not betray anyone, why because this Precalculus: Functions and Graphs (4th Edition) e-book written by well-known writer we are excited for well how to make book which might be

understand by anyone who else read the book. Written with good manner for you, still dripping wet every ideas and publishing skill only for eliminate your personal hunger then you still doubt Precalculus: Functions and Graphs (4th Edition) as good book not just by the cover but also by content. This is one publication that can break don't assess book by its handle, so do you still needing a different sixth sense to pick that!? Oh come on your looking at sixth sense already told you so why you have to listening to an additional sixth sense.

Jimmy Dolce:

In this era which is the greater individual or who has ability to do something more are more special than other. Do you want to become certainly one of it? It is just simple method to have that. What you have to do is just spending your time little but quite enough to have a look at some books. One of many books in the top list in your reading list is Precalculus: Functions and Graphs (4th Edition). This book which is qualified as The Hungry Mountains can get you closer in turning into precious person. By looking upward and review this book you can get many advantages.
