Residential Construction Academy HVAC By Eugene Silberstein

RESIDENTIAL CONSTRUCTION ACADEMY: HVAC 2nd edition delivers training materials with a hands-on practical approach. Based on NAHB/HBI Skill Standards developed by an advisory board of leading builders and educators, this full color, comprehensive text is intended for aspiring technicians and covers the installation, startup and service of residential air conditioning and heating systems. This new edition continues to present material as a theory then explains with how-to instructions while at the same time adhering to the NAHB/Home Builders Institute's Skills Standards for HVAC. Instructions contain step by step procedures with illustrations side by side with the description, giving clarity to the instructions. The first section explores matter, energy, heat and the basics of refrigeration with a view towards building a working knowledge of the behavior of heat and how it is transferred. Next, the start up and service section illustrates the steps that must be followed to make certain that airflow through the system is correct and the amount of refrigerant in the system is within the acceptable range. Finally the installation and service of oil, gas, electric and geothermal heating systems is covered as well as boilers, hydronic heating and radiant heating.

Editorial Review

Review

"This text possesses information and data relevant and important for any HVAC training." - Richard Anderson, Mississippi Job Corps Center, Crystal Springs, MS

About the Author

Over the past thirty-five plus years, Eugene has been involved in all aspects of the HVAC/R industry from field technician and system designer to company owner, teacher, administrator, consultant and author. Eugene is presently an Assistant Professor and lead faculty member for the HVAC/R program at Suffolk County Community College in Brentwood, New York. Eugene has twenty-three years of teaching experience and has taught HVAC at several institutions. Eugene earned his dual Bachelors Degree from The City College of New York and his Masters of Science degree from Stony Brook University, where he specialized in renewable and sustainable energy sources. He earned his Certified Master HVAC/R Educator (CMHE) credential from the ESCO Group. Eugene also carries the BEAP credential issued by ASHRAE, classifying him as a Building Energy Assessment Professional. Eugene, an active member of both ASHRAE and RSES, served as the author and subject matter expert for multiple projects including Refrigeration and Air Conditioning Technology, 6th and 7th Editions, Residential Construction Academy: HVAC, 1st and 2nd Edition, Pressure Enthalpy Without Tears (2006), Heat Pumps, 1st and 2nd Editions and Psychrometrics Without Tears (2014).

Users Review

From reader reviews:

Larry Davis:

Have you spare time for a day? What do you do when you have much more or little spare time? Yeah, you can choose the suitable activity with regard to spend your time. Any person spent their spare time to take a go walking, shopping, or went to the Mall. How about open or perhaps read a book titled Residential Construction Academy HVAC? Maybe it is to get best activity for you. You recognize beside you can spend your time using your favorite's book, you can wiser than before. Do you agree with its opinion or you have additional opinion?

Susan Spiegel:

What do you in relation to book? It is not important along? Or just adding material when you need something to explain what your own problem? How about your extra time? Or are you busy individual? If you don't have spare time to perform others business, it is gives you the sense of being bored faster. And you have extra time? What did you do? All people has many questions above. They have to answer that question because just their can do this. It said that about e-book. Book is familiar in each person. Yes, it is correct. Because start from on jardín de infancia until university need this specific Residential Construction Academy HVAC to read.

Brenda Robert:

Information is provisions for those to get better life, information currently can get by anyone with everywhere. The information can be a understanding or any news even a concern. What people must be consider if those information which is within the former life are difficult to be find than now's taking seriously which one is suitable to believe or which one the resource are convinced. If you receive the unstable resource then you have it as your main information you will see huge disadvantage for you. All those possibilities will not happen inside you if you take Residential Construction Academy HVAC as the daily resource information.

Tony Reed:

In this era globalization it is important to someone to receive information. The information will make professionals understand the condition of the world. The health of the world makes the information simpler to share. You can find a lot of personal references to get information example: internet, newspaper, book, and soon. You can observe that now, a lot of publisher in which print many kinds of book. The book that recommended for your requirements is Residential Construction Academy HVAC this book consist a lot of the information in the condition of this world now.
