**Computational Methods, Seismic Protection, Hybrid Testing and Resilience in Earthquake Engineering: A Tribute to the Research Contributions of Prof. ... Geological and Earthquake Engineering)** From Springer

The book is a tribute to the research contribution of Professor Andrei Reinhorn in the field of earthquake engineering. It covers all the aspects connected to earthquake engineering starting from computational methods, hybrid testing and control, resilience and seismic protection which have been the main research topics in the field of earthquake engineering in the last 30 years. These were all investigated by Prof. Reinhorn throughout his career. The book provides the most recent advancements in these four different fields, including contributions coming from six different countries giving an international outlook to the topics.

### **Editorial Review**

From the Back Cover

The book is a tribute to the research contribution of Professor Andrei Reinhorn in the field of earthquake engineering. It covers all the aspects connected to earthquake engineering starting from computational methods, hybrid testing and control, resilience and seismic protection which have been the main research topics in the field of earthquake engineering in the last 30 years. These were all investigated by Prof. Reinhorn throughout his career. The book provides the most recent advancements in these four different fields, including contributions coming from six different countries giving an international outlook to the topics.

### **Users Review**

**From reader reviews:**

**Susan Williams:**

The reserve untitled Computational Methods, Seismic Protection, Hybrid Testing and Resilience in Earthquake Engineering: A Tribute to the Research Contributions of Prof. ... Geological and Earthquake Engineering) is the publication that recommended to you to read. You can see the quality of the publication content that will be shown to anyone. The language that article author use to explained their ideas are easily to understand. The author was did a lot of research when write the book, therefore the information that they share to your account is absolutely accurate. You also could get the e-book of Computational Methods, Seismic Protection, Hybrid Testing and Resilience in Earthquake Engineering: A Tribute to the Research Contributions of Prof. ... Geological and Earthquake Engineering) from the publisher to make you much more enjoy free time.

**Chris Robertson:**

Playing with family inside a park, coming to see the water world or hanging out with buddies is thing that usually you could have done when you have spare time, and then why you don't try point that really opposite from that. A single activity that make you not sensation tired but still relaxing, trilling like on roller coaster you already been ride on and with addition of information. Even you love Computational Methods, Seismic Protection, Hybrid Testing and Resilience in Earthquake Engineering: A Tribute to the Research Contributions of Prof. ... Geological and Earthquake Engineering), you can enjoy both. It is excellent combination right, you still want to miss it? What kind of hang-out type is it? Oh come on its mind hangout guys. What? Still don't get it, oh come on its identified as reading friends.

**Tracy Painter:**

Don't be worry for anyone who is afraid that this book can filled the space in your house, you may have it in e-book way, more simple and reachable. This particular Computational Methods, Seismic Protection, Hybrid

Testing and Resilience in Earthquake Engineering: A Tribute to the Research Contributions of Prof. ... Geological and Earthquake Engineering) can give you a lot of close friends because by you taking a look at this one book you have thing that they don't and make a person more like an interesting person. This specific book can be one of one step for you to get success. This book offer you information that maybe your friend doesn't know, by knowing more than some other make you to be great men and women. So , why hesitate? We should have Computational Methods, Seismic Protection, Hybrid Testing and Resilience in Earthquake Engineering: A Tribute to the Research Contributions of Prof. ... Geological and Earthquake Engineering).

### **Ronald Cleary:**

What is your hobby? Have you heard which question when you got pupils? We believe that that issue was given by teacher to their students. Many kinds of hobby, Everyone has different hobby. And also you know that little person just like reading or as reading become their hobby. You need to know that reading is very important in addition to book as to be the issue. Book is important thing to increase you knowledge, except your own personal teacher or lecturer. You get good news or update in relation to something by book. Different categories of books that can you choose to adopt be your object. One of them is niagra Computational Methods, Seismic Protection, Hybrid Testing and Resilience in Earthquake Engineering: A Tribute to the Research Contributions of Prof. ... Geological and Earthquake Engineering).
