Testing and Quality Assurance for Component-Based Software (Artech House Computing Library) By Jerry Zeyu Gao, H.-S. Jacob Tsao, Ye Wu

Presenting the state-of-the-art in component-based software testing, this new, cutting-edge resource offers you an in-depth understanding of the current issues, challenges, needs, and solutions in this critical area. The book discusses the very latest advances in component-based testing and quality assurance in an accessible tutorial format, making the material easy to comprehend and benefit from no matter what your professional level. The book clearly explains what component-based software testing is, why it is important, and how it differs from traditional software testing. From an introduction to software components, testing component-based software, and validation methods for software components, to performance testing and measurement, standards and certification, and verification of quality for component-based systems, you get a revealing snapshot of the key developments in this area, including important research findings. This unique volume also serves as an excellent textbook for related courses at the advanced undergraduate or graduate level.

Editorial Review

About the Author

Jerry Zeyu Gao is an associate professor of the department of computer engineering at San Jose State University. He received his M.S. and Ph.D. in computer science from the University of Texas at Arlington. He has published over 35 technical papers in IEEE/ACM journals, magazines, and international conferences, and is a co-author of another book in software testing.

H.-S. Jacob Tsao is an associate professor of industrial and systems engineering at San Jose State University. Dr. Tsao received his M.S. in mathematical statistics from the University of Texas at Dallas and his Ph.D. in operations research from the University of California at Berkeley. He has published over 30 refereed journal papers and a research book.

Ye Wu is an assistant professor of the information and software engineering department at George Mason University. He holds an M.S. and Ph.D. in computer science from Shandong University, P.R. China and State University of New York at Albany, respectively. Dr. Wu has been a Member of IEEE since 1999.

Users Review

From reader reviews:

Robert Collado:

This book untitled Testing and Quality Assurance for Component-Based Software (Artech House Computing Library) to be one of several books this best seller in this year, here is because when you read this reserve you can get a lot of benefit into it. You will easily to buy this specific book in the book retail store or you can order it by means of online. The publisher with this book sells the e-book too. It makes you quicker to read this book, as you can read this book in your Mobile phone. So there is no reason for you to past this e-book from your list.

Cesar Ford:

Do you have something that that suits you such as book? The e-book lovers usually prefer to opt for book like comic, short story and the biggest one is novel. Now, why not hoping Testing and Quality Assurance for Component-Based Software (Artech House Computing Library) that give your entertainment preference will be satisfied by simply reading this book. Reading addiction all over the world can be said as the opportunity for people to know world considerably better then how they react in the direction of the world. It can't be stated constantly that reading behavior only for the geeky man or woman but for all of you who wants to possibly be success person. So , for every you who want to start looking at as your good habit, you can pick Testing and Quality Assurance for Component-Based Software (Artech House Computing Library) become your own starter.

Arthur Prince:

Do you like reading a reserve? Confuse to looking for your selected book? Or your book was rare? Why so many question for the book? But any kind of people feel that they enjoy to get reading. Some people likes reading through, not only science book but novel and Testing and Quality Assurance for Component-Based Software (Artech House Computing Library) or maybe others sources were given know-how for you. After you know how the truly great a book, you feel would like to read more and more. Science reserve was created for teacher or even students especially. Those ebooks are helping them to bring their knowledge. In various other case, beside science reserve, any other book likes Testing and Quality Assurance for Component-Based Software (Artech House Computing Library) to make your spare time more colorful. Many types of book like here.

Paul Avila:

What is your hobby? Have you heard that question when you got scholars? We believe that that problem was given by teacher to their students. Many kinds of hobby, Every individual has different hobby. Therefore you know that little person including reading or as reading through become their hobby. You need to understand that reading is very important and book as to be the factor. Book is important thing to provide you knowledge, except your teacher or lecturer. You will find good news or update concerning something by book. Amount types of books that can you decide to try be your object. One of them is actually Testing and Quality Assurance for Component-Based Software (Artech House Computing Library).
